Sea creatures suggest trade and connection to ocean; less about warfare

# Minoan civilization

# Minoan civilization

- \* Minoan civilization on Crete suffered a catastrophe around 1635 BCE.

# Minoan civilization

- \* Minoan civilization on Crete suffered a catastrophe around 1635 BCE.
- \* Historians believe volcanic eruption on Thera caused tidal wave/tsunami.

# Minoan civilization

- \* Minoan civilization on Crete suffered a catastrophe around 1635 BCE.
- \* Historians believe volcanic eruption on Thera caused tidal wave/tsunami.
- \* Others believe the civilization was destroyed by an invasion of mainland Greeks known as the Mycenaeans.

# The Mycenaeans

1600 – 1100 BCE

# Minoan and Mycenaean Civilizations

# The first Greek state: Mycenae

# The first Greek state: Mycenae

❖ Fortified city in Greece.

# The first Greek state: Mycenae

- ❖ Fortified city in Greece.
- \* Made up of an alliance of powerful monarchies, each living in a fortified center within large stone walls.

# The first Greek state: Mycenae

- ❖ Fortified city in Greece.
- \* Made up of an alliance of powerful monarchies, each living in a fortified center within large stone walls.
- \* The rest of the population lived outside these walls.

# The first Greek state: Mycenae

- ❖ Fortified city in Greece.
- \* Made up of an alliance of powerful monarchies, each living in a fortified center within large stone walls.
- \* The rest of the population lived outside these walls.
- \* One interesting architectural feature is the large beehive-shaped *tholos* tombs, where the royal family was buried.

# Mycenaeans, cont'd

- \* Unlike Minoans, Mycenaeans had a warrior culture
- \* Their murals show hunting and fighting

# Mycenaeans, cont'd

- \* Mycenaeans also developed an extensive commercial network
- \* Their pottery has been found throughout the Mediterranean area
- \* They conquered some of the Greek islands, perhaps even Crete

# Homer's Great Epics

- \* Most of the Mycenaeans' military adventures comes from the poetry of Homer

# Homer

# Homer

# Homer

- \* According to Homer, the Mycenaeans sacked the city of Troy, on the northwestern coast of modern Turkey, around 1250 BCE.

# Homer

- \* According to Homer, the Mycenaeans sacked the city of Troy, on the northwestern coast of modern Turkey, around 1250 BCE.
- \* An amateur archaeologist, Schliemann, later excavated Troy and some people believe Homer's account is based on fact, but no one is certain.

# Ruins at Troy

# Mycenaeans

# Mycenaeans

- ✦ The Mycenaean states began to fight one another, and earthquakes damaged their civilization.

# Mycenaeans

- ❖ The Mycenaean states began to fight one another, and earthquakes damaged their civilization.
- ❖ It collapsed by 1100 BCE, after new waves of invaders moved into Greece from the north.

# Dark Age

# Dark Age

\* Period from 1100 to 800 BCE in Greece.

# Dark Age

- \* Period from 1100 to 800 BCE in Greece.
- \* A “Dark Age” because few records of that period exist.

# Dark Age

- \* Period from 1100 to 800 BCE in Greece.
- \* A “Dark Age” because few records of that period exist.
- \* Both population and food production fell.

# Dark Age

- \* Period from 1100 to 800 BCE in Greece.
- \* **A “Dark Age” because few records of that period exist.**
- \* Both population and food production fell.
- \* Around 850 BCE, farming revived and the basis of a new Greek civilization began to be formed.

# Dark Age

- \* Period from 1100 to 800 BCE in Greece.
- \* **A “Dark Age” because few records of that period exist.**
- \* Both population and food production fell.
- \* Around 850 BCE, farming revived and the basis of a new Greek civilization began to be formed.
- \* Many Greeks emigrated to the west coast of Asia Minor (modern Turkey).

# Dark age cont'd

# Dark age cont'd

- \* Iron replaced bronze during the Dark Age, improving weaponry and farming.

# Dark age cont'd

- \* Iron replaced bronze during the Dark Age, improving weaponry and farming.
- \* During the eighth century BCE, the Greeks adopted the Phoenician alphabet, which made reading and writing simpler.

# Dark age cont'd

- \* Iron replaced bronze during the Dark Age, improving weaponry and farming.
- \* During the eighth century BCE, the Greeks adopted the Phoenician alphabet, which made reading and writing simpler.
- \* The works of Homer, one of the world's great poets, appeared near the end of the Dark Age.

# The Polis: Center of Greek Life

- \* By 750 BCE, the **polis** (city-state) became the central focus of Greek life.
- \* It was a town, city, or village serving as a center where people met for political, economic, social and religious activities.

Ancient Athens

# The Polis: Center of Greek Life

- \* The main gathering place was usually a hill, topped with a fortified area called the **acropolis**.
- \* This was a refuge and sometimes a place for religious or other public buildings.
- \* Below was the **agora**, an open area for people to assemble and for a market.

# The Polis: Center of Greek Life

- \* There was no single ruler over these individual city-states.
- \* Each had its own government, although some city-states formed alliances.

Map of independent city-states in ancient Greece
